

WHAT'S HANGING ON YOUR WALLS?

"Art is one of those few wonders in life that can speak to you without even uttering a word."

- IAYSHA SALIH -

Experienced consultant and international art dealer, Iaysha Salih, turns vision into reality for her clients. Having begun her career as an art director and fine artist, Iaysha went on to own her own art gallery in Royal Tunbridge Wells. After 12 successful years, she sold the gallery and decided to work privately for her clients, sourcing and curating artwork for homeowners, businesses, private collectors, interior designers and architects.

Iaysha's success stems from her love for the visual medium and having been actively involved in the art industry for over 25 years. This has helped her develop a rather unique client base, with the sole aim of assisting clients in adorning their walls with the art that inspires them.

THE ART OF SOURCING ARTWORK

Iaysha appreciates that the majority of her clients lead busy lifestyles. Whether on a fleeting visit to the UK, or simply sourcing a unique piece of art as a gift, she will manage her clients' expectations to great effect.

Among the many benefits of using Iaysha Art Consultancy is having access to her extensive network of contacts, which enables her to source works that otherwise are not readily available. Iaysha is fortunate to be closely associated with a number of well-known artists, which gives her clients direct access to works not on the market.

Art is an investment for some, but Iaysha Art Consultancy encourages clients to go for pieces that move and inspire them. Looking at a piece of art can bring so

much joy; It is an intuitive connection, and one that resonates above the frequency of conventional communication.

A typical client would be someone who is passionate about art, but unable to dedicate the time to source the artworks. The clients can expect works that are of the highest quality and can be shipped to whatever destination required. This can be for a private residence or a business, either as a one-off piece or a larger collection of works.
